Key rules

- S1 mints at 1.5x, S2 at 1.3x, S3 at 1.0x.
- Handshake: 5% uniform fee, value range $0.01 to $0.02, 1-hour duration, no allowance limit.
- The ETH price is retained from the build. No refresh is needed before signing.
- Dry-run (local Base fork, simulated, nothing broadcast): reconciliation PASS; a 1000 USDC 7-day lock mints 15,000 VCLM.

Signing

The founder signs, broadcasts and finalizes. This package contains no keys.
